The Note Table is a perfect side table/ Laptop table, made from solid bent 16mm rod the note table is great for collaborative working environments. Designed for people working on the go the angle of the leg allows the table to sit close up against any chair, or ottoman whilst people read or type. It looks great in primary colours to add a real pop to a space, but also works well in more muted tones. With the ability to customise the top and powdercoating finish the Note is a great addition to a modern fit-out
